# FARMNAVIGATOR

G7 FARMNAVIGATOR

Your guide to Precision Agriculture

- Parallel Guidance
- Automatic Section Control
- Auto-Steering
- WiFi connectivity

High-quality display, great price!

The work in the fields requires a robust, reliable, dust-proof and water-proof display, that is easy-to-clean.
With G7 FARMNAVIGATOR, you get the quality of a Made in Italy product.

Versatile and connected

It can be installed on any tractor, self-propelled and harvesting machine. With WiFi* and three serial ports, G7 FARMNAVIGATOR easily interfaces with section control monitors.

Visible in any condition

The 7" HD LCD with 16 million colors is super bright and is visible even in direct sunlight. It can be used on open stations too!

Easy to install and use

It includes all the accessories you need to start working with ease, even if it is your first satellite guide!

*G7 Plus FARMNAVIGATOR

Precision Agriculture for farms of all sizes

No more excuses, you can now switch to intelligent agriculture and work with greater precision without wasting time and chemicals.

Turn into a Precision Agriculture expert thanks to G7 FARMNAVIGATOR!

Section Control

Avoid overlapping treatments in order not to damage the crops. Close the marked boom sections manually or connect the G7 FARMNAVIGATOR to a compatible automatic controller to reduce costs and environmental impact.

Compatible automatic controllers:

Agral Agsis, Agromechanika Agtronik S1/ 14, Arag Bravo 300s / 300s RCU /180s, Bertolini Buono, Bogballe Calibrator Zurf spreader, Bogballe Icon, Caffini CB9, Farmscan Unipod, Hard HC5500 / HC6500, MC elettronica Hydra 590, Rauch Quantron A / E, Tecnomec Geosystem 260.

Find the complete list of compatible controllers at www.farmnavigator.com

Auto-Steering

With the FARMNAVIGATOR Auto-Steering Kit, you get maximum precision to get the job done with less effort.
With our RTK receiver, you can achieve an accuracy of +/- 2 cm!

✓ Install it by yourself

The installation of G7 FARMNAVIGATOR is very fast:
1. Place the display on the bracket
2. Connect the power cable to the vehicle
3. Connect the external antenna to the serial connector
   READY TO GO!

✓ Transfer it from one vehicle to another

You can equip all your farm vehicles with a powered bracket so you can relocate G7 FARMNAVIGATOR from one vehicle to another with a simple gesture.

All images are for illustrative purposes. The products can be subject to changes.

Video camera connection

Control your video camera directly from the 7" display, for rearview or to monitor your implements.
