

# FARMNAVIGATOR

## 4G Agri

The first telematics HOTSPOT  
dedicated to 4.0 Agriculture

### Telematics Box

4G Agri is a powerful telematics box independent from the smartphone, that makes your agricultural vehicles connected. It integrates a full inertial platform, accelerometer, GPS, CANbus, WiFi and 4G modem.

### 1 YEAR of localization and telemetry included

4G Agri includes MyGarage Cloud service to localize your vehicles and monitor their consumption.

### Overturning alarm

The included inclinometer activates the alarm for the safety of vehicles on your farm.

### Connectivity for tractors, instruments and sensors

4G Agri provides connectivity for the RTK receiver corrections or for any tool or sensor equipped with a 4.0 application in your agricultural vehicle!

## Your farm finally connected

Your vehicles and implements are always connected, with a smartphone-independent professional telematic box.

# ✓ 1 YEAR of MyGarage included!

The FARMNAVIGATOR localization service

Register 4G Agri in a few simple steps.

# FARMNAVIGATOR

## My Garage

Monitor vehicles, jobs and consumptions on the Cloud!

### Localization

Remotely monitor your tractors and employees.

### Overturning alarm

Increase the safety of vehicles on your farm.

### Telemetry with CANbus data

With 4G Agri connected to the vehicle's CANbus, the fuel consumption\* is always under control.

### Technical Specifications

- Dimensions: 105 mm x 102.3 mm
- Weight: 166 g
- Power supply: 12 - 24 Vdc
- Transmission frequency range: 791-2690 MHz
- Triaxial accelerometer + gyro: ACC 500 Hz, min 0.125 g - max 16 g
- Built-in GPS
- 4G modem
- WiFi
- CANbus (J1939)
- Operating temperature: -20°C / + 65°C
- Storage temperature: -40°C / + 85°C

### Main Functions

- Recording of all vehicle movements
- Fuel level\*
- Fuel consumption liter / hour\*
- Engine revolutions and temperature\*
- Overturning alarm
- Calibration procedure on smartphone
- Automatic connection to the IoT server
- Automatic software updates

\* If available from the vehicle CANbus.
